Re: Washington School Project

Dear Mr. Moutis,

I wish to thank you for the most professional manner in which the reconstruction project at Washington School was handled.

Although you were required to work within a restricted timeframe, all deadlines were met allowing for a smooth school opening in September. Your entire crew worked tirelessly and professionally ensuring every detail met specifications both legally and aesthetically.

The biggest compliment came from one of our students who exclaimed, “I’m lucky because I had an old school in June and a new one in September”.

Thank you again.

Sincerely,

MRS. GRIFFIN-USSAK,
PRINCIPAL
